Introduction from Taman Budaya Bali "Art Center"

We are very pleased to have one of our painters carry into effect an Art Exhibition in Europe. Yan Suryana was born in Bandung on January, 1st, 1956. He shows great talent, imagination as well as inspiration in his works.

The artist who has disclosed his painting talent from childhood on has realized several painting exhibitions together with his friends on the Nusantara Islands as well as in Europe. Yan Suryana is the right painter to convey the cultural message of throwing a bridge between the Indonesian and the European culture. After travelling to Europe and to the U.S.A. several times the painter will now exhibit his works in Austria, Germany, and France.

We welcome Yan Suryana's efforts to take the Indonesian culture to the world and to unite the Western and Eastern art trends. I hope these efforts will be followed by other artists proving their professionalism. Hopefully there will be more than one person like Yan Suryana in the future who can prompt the cultural mission and promote it to the international world. We should like to thank everybody involved in the realization of this art event for their participation and cooperation.
